George Washington

"The great Republic had its birth That hour beneath the Army's wing.

Whose leader taught by native worth

The man is grander than the King."—Wallace Bruce.

There never has been a time since the days of the great comprehensive Washington when it was not good for us to remember him and his preeminent character and to treasure the memory of the part he and our ancestors bore in their united struggle for National Independence.

It is well that this day, (the 22 of February) has been set apart as a national holiday for the purpose of refreshing our minds and showing our deep sense of the value and importance of their achievements.

It is well to remember it with thanks to the Giver of all good gifts, to the Ruler of the destinies of nations, from whose wisdom George Washington and the patriots received guidance and power to inspire each other. His was a day when true politics was enlarged morality. His was a day—When the hearts of the people beat as one. "Aggression began the Revolution, necessity unsheltered the sword and victory returned it."

An act of congress made George Washington the commander of the American Army. He became our bulwark and our fortress.

He took upon his shoulders, in the possible and very probable case of disaster and ruin, our ignominy and punishment. His great honest and self sacrificing nature his spotless character and true nobility inspired his countrymen with the best and first sentiments of their own natures. How glorious it is to recall the eventful history and hear the inspired voice of James Otis sound the key note of resistance when he says, "I will resist to the hour of death such injustice." To hear the call to arms of Patrick Henry when he says, "Our brothers of the North are already in the field as for me—Give me liberty or give me death." I have it handed down to me by word of mouth from my forefathers who were Virginians and I believe it was the truth and I here record it that when Patrick Henry made

that speech (one of the seven greatest of oratorical achievement there radiated from his head sparks of moving light. Let irreverent people jeer at this, let them jeer at the infant lips of George Washington when he said, "I cannot speak a lie" but they are truths that children can understand.

To speak as these men spoke was to defy their mother country and thereby rend their own hearts and it meant apparently nothing less than death but their words had to come. Each and every one lived up to the best in their nature and if it was only one deed one hour or one day they served their makers purpose and their Country's need, let us be charitable to all and remember them with love for the good they did do—even that hero of Saratoga who so gallantly rode the black horse times unnumbered through the black jaws of death and yelled from the top of the steeps to his General below "Saratoga is saved." How glorious to hear the voice of Webster exclaim "Give me a country, at least the hope of a country, and that a Free country."

It remained to George Washington to combine all the separate virtues into one and present to the world a character which was above political temptation, a character which was a blessing to humanity and mutely declared to the world it is better to be a man than a king. It was then that the starry eyed goddess of Democracy was born and the Republican form of Government arose above the battle smoke of the valleys and the mountains and the clear starry heavens declared the brotherhood of man. The words of Henry Lee declare of Washington, "The first in war the first in peace and the first in the hearts of his Countrymen." I repeat there has never been a time that it was not good for us to remember George Washington and there never has been a time when we need his example and advice more than to day. War enveloped Europe in front of us, war enveloped Canada above us, war enveloped Mexico south of us; this is assuredly a time when trivials should be forgotten and we should let this be a day when the hearts of all the people beat as one.

Discusses Prohibition

Knoxfork, Ky.
February 12, 1916

To the readers of the Advocate: The editor has requested a general discussion through the columns of our paper, of the liquor traffic with reference to state-wide prohibition, and if my few remarks are printable I will say that I am not the least bit embarrassed to stand upon, not only state-wide, but national prohibition.

Not that I am condoning the "county-unit"; no sir, far from it, but a child has to crawl before it can walk. So we must let that be our first step toward something better, and while the county unit bill was a great stride toward eliminating this great curse yet we must not sit down and say all is done, but let us strive to get our legislators to pass an act, submitting to the people the question of State-wide prohibition.

I do not see what argument those who advocate the manufacture and sale of intoxicants can bring to their defense, for it seems to me a very one sided question.

Some of those on the other side say that it is the medical properties that makes it useful, but NO, the medical fraternities and societies of the United States have marked alcohol and whiskey off their list as medicine claiming that it has no medical value whatever.

Also some people say that we should keep the "booze" with us, because of the revenues it pays to the State. Well let's see about that. Figures show that the cost of keeping our prisons, asylums, and criminal institutions, together with criminal prosecutions of the courts, \$1,500,000 each year. And great judges and jurists say that at least 80 per cent of the crimes, insanity and pauperism can be traced to the "liquor traffic". That be true, it can be readily seen that to take 80 per cent of \$1,500,000 would equal to \$1,200,000 extra expense incurred to the State. And as the whiskey and liquor revenue from all sources is only \$600,000 I fail to see where the revenue is that would be on the credit side of the State treasury.

The saloon men say that State prohibition will not eradicate all illicit distilling and moonshining; neither does sending a person to the gallows or electric chair prohibit an occasional murder being committed. Yet we do know that State wide prohibition would reduce all lawlessness to a minimum, and our executive officials would have more time and could more easily locate, all blind tigers and bootleggers.

It has been said that 6 per cent interest on the forty million dollars booze bill of Kentucky would in one year pay off the State indebtedness.

Marion Hughes, the author said he believed that Hell was divided into departments commencing at the top and running down, a man who had committed a few little sins would be in the top row, and men a little worse would be one section lower, and murderers were lvery deep down according to his theory. And in that be true, I believe that the men who manufacture and sell alcohol and whiskey are the deepest in Torment.

First look at the happy homes he has broken up, the widows and orphans has caused the poverty that he has been the instigator of and the crimes and mur-

ders he has been responsible for. I charge that to him, that puts him away down.

Then look at the women and young girls that he directly and indirectly causes to wander away into wickedness. I charge that to him, that puts him farther down.

Then look at the young men that go away into all kinds of wickedness, and become gamblers, outcasts, and criminals, I charge that to him so that puts him deeper.

Then look at the sorrows, that the grief-stricken mothers and wives have worried over, and the drunkards graves that have been dug, and alas! the souls that have been lost. So I charge that to him, so down deeper he goes.

Now for the present I will stop and ask you to figure on it when you have a day off and see if I haven't left him too near the top. But I believe before you get through that you will have these "labor men" deeper in the infernal regions than a pigeon could fly in six weeks or farther than the distance from the earth to the moon.

Respectfully, Ewell V. Osborn.

Another Good Citizen

Gone to Rest

Last Sunday Mr. John Thomas Parrott, one of the county's best citizens died at his home, on Parrott Branch, about four miles north of Barbourville, with a complication of diseases. Mr. Parrott was 71 years old and had been married twice his first marriage to Susan Witt, to them were born five sons and one daughter. The last marriage was to Huida Jackson, and this union were born three daughters and one son. He was a member of the Baptist Church, and was a servant to the brethren of his church, a true friend to all he knew and was loved and respected by all who knew him.

The family has our deepest sympathy in this, their sad and irreparable loss.

The Governor is authorized to appoint a Judge and Commonwealth's Attorney in the new Thirty-Sixth, but the other Judges and Prosecutors are not affected by the bill.

Mrs. Minnie Riddell, the former owner, was the purchaser, and will open a first-class hotel about the first of April. S. N. Miller purchased Mrs. Riddell's property on River street. Mr. Cole will make his home in Harlan county where he is interested in some large coal operations.

Come in and see this wonderful MACHINE

See it at work keeping your account without mistake, and with neatness and dispatch.

It will take the balance you have in the bank this morning, adds the amount of your checks you give, takes your deposits, adds that to what you already had in bank, then subtracts the total of your checks from your total balance and deposits and places your balance left in bank all in the proper columns at one movement across the ledger leaf.

It will be worth your time to come in and see it operate. Mr. Perkins will take pleasure in showing you how it operates.

Don't keep your money at home where it may BE LOST, BURNED OR STOLEN

Bring in here and see this MORE THAN HUMAN MACHINE open an account with you. We will keep your money safe and always have it ready for you when you call for it. Court at Williamsburg Monday. Judge Sampson Almost Continually on the Job as Judge of this District

This week completes a twelve days session of Circuit Court at Whitley City, McCreary County, and court will convene at Williamsburg next Monday. At the close of our court here in Knox County, February 5th, Judge Sampson went on the Monday following and convened court in McCreary County for a two weeks term, finishing his court there this week.

The docket of each of his courts is being rapidly cleared up.

There are no important murder cases as of former days, and very few felony charges to try. The Judge with the assistance of our able and fearless Commonwealth's Attorney, with the assistance also of a good County Attorney in each of the Counties of the District is gradually but surely reducing the number of petit crimes and misdemeanors. Judge Sampson is a terror to law violators, yet as everyone knows, who has been in his courts, he is just as vigilant to see that the innocent man escapes punishment as he is to have the guilty pay the penalty.

This clearing the docket is a great advantage to the whole people, not only in the getting rid of so much crime and lawlessness which has been so common, and the lessening of which results in a great moral uplift to the community, this affords also more time in the courts for the trial and disposition of civil suits. The people who have cases in court are entitled to have them tried.

Many Strange Things

Many strange things happens, and some are not so strange, yet most any man can see mistakes of the smart set, some do things when they want to, some when they can and others when they are driven to do so by public sentiment.

President Wilson for example set right down on war at any price said we are to proud to fight our flag had been insulted, our sailors had been taken prisoners, and when the people rose up with indignation and demanded reparation. President Wilson wrote a note to Huerta demanding a salute to our flag. Huerta refused to salute and said that he would die first and he did, soldiers were ordered to Vera Cruz they went, captured the city and could have gone on to the capital of that country, Mexico City, could have done all this without any trouble whatever. But our troops were recalled without a salute to our flag, and the shedding of the blood of our citizens went on and the President kept on writing notes, and in each case, or most part of same the notes were treated with contempt by the Mexican leaders, and our President has become a joke in that sunny land.

Mexico pays no attention to our demands they do not believe a thing that comes from President Wilson or a single member of his cabinet, they know that it amounts to less than nothing when they read one of Wilson's notes. But all of a sudden the President becomes all excited, something has to be done, he has waited long already, now he

BUSINESS IS
BASED ON CONFIDENCEA Theory Put into Practice by Well
Known Business Man

J. C. BRADY

"A druggist has many opportunities to make lasting friends of his customers," said Mr. J. C. Brady, popular Rexall Pharmacist of Fall River, Mass. "The very nature of his business draws their confidence for little helpful suggestions on the matter of health. Many people have thanked me for recommending Rexall Orderlies as the best relief for constipation and its resultant ills. Put up in dainty candy tablet form, they are pleasant to the taste and make an ideal laxative for the home—for men, women and children alike."

finds as he thinks the loop thru which he hopes to escape get to St. Louis and capture the nomination for a second term as president of the United States. So he takes a long itinerary through the United States preaching preparedness to the people, making a great display, letting it get into the papers and letting it be flashed over the seas to other countries, it is like going out fox hunting with a brass band and riding a noisy automobile.

What is all this noise about anyway? What good does it do to go before the people and preach on the housetops about preparedness? Why don't the President stop all this tomfoolery and go before the congress of the United States and then enact laws for these preparations? If Jim Jones is afraid of Tom Brown and Jones was to buy a pistol with which to defend himself don't you think he would be a fool if he was to get upon a goods box on the street and proclaim to the world that he had the gun and was ready for the fray? He sees also, that second term plank, it is like a night mare to him, he does not know how to side track that old plank, and there is Mr. Bryan, once a member of his Cabinet that is now an eye sore to the President and will be at the St. Louis convention and will be there to take the nomination for himself or deliver it to the men of his own choice.

And after all this, if his party should see fit and proper to give Mr. Wilson the nomination for a second term, after they shall have done so, his troubles have just begun. He will only have to look into the face of the greatest defeat that any man has ever had since 1888. He has not been equal to the occasion, neither is he now, the Democratic party sees its mistake the now most part of them that in order for this country to live we must the walls of protection build higher and stronger than they have ever been heretofore.

There is no use for a war tax stamp, none earthly, why should we? We have no war and will not have, wars have been always and there will always be wars nations are born as men are born to die. Our nation is the oldest nation in the world. We as a people are living under the oldest unchanged form of Government in the world, yet we are destined to have wars—they will come sooner or later—we cannot avert them this nation like all others have had its wars, and in every conflict it has been victorious, we say victorious because in all of them it has won.

The war of 1861-65, was not against another, yet it was to save the nation. It was about to be torn asunder, and in the victory won by the Federal made it a national victory, because it saved the nation and made us one people for one cause with no north or south no east or west makes us a powerful nation, we need but little time to get ready to defend our flag, all that is necessary is to give the bugle call, and 10,000,000 of the best volunteers that ever went forth to battle will respond, every American is a natural born soldier we need have no fears, all we need is the arms and ammunition we already have the nerve.

WHY PRINCE ALBERT WINS

Patented Process Is Responsible For Its International Popularity

Smokers so much appreciate the flavor and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others.

The answer to this question is to be found on the reverse side of every Prince Albert package, where you will read: "Process Patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeable and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a makin's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And, no matter how tender the tongue, Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joy of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made the three men smoke pipes where one smoked a pipe before!

Of Interest to Barbourville Readers

For months Barbourville citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills, by residents of this locality.

Would these prominent people recommend a remedy that had not proven reliable?

Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement?

The following statement should carry conviction to the mind of every Barbourville reader.

"R. B. Dugger, Mt. Vernon, Ave. Somerset, Ky., says: 'I had a steady ache across the small of my back and trouble with the kidney secretions. Sometimes, I couldn't work on account of the severe pain in my back. Doan's Kidney Pills gave me quick relief.'

DOAN'S NEVER FAIL OVER EIGHT YEARS LATER Mr. Dugger said: 'I use Doan's Kidney Pills occasionally and they never fail to bring good results.' Price 50c. at all dealers. Don't simply ask for a kidney remedy get Doan's Kidney Pills the same that Mr. Dugger has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. [adv.]

CLOSING DAYS PROMISE RUSH

General Assembly Passed Few Bills—Session To Close in Three Weeks

STATE-WIDE DEFEATED

Woman Suffrage is Placed on Calendar in House—Republicans Make Plans for State Convention March 1.

Frankfort, Ky. (Special)—With the closing of the 1916 session of the Kentucky Legislature near at hand, there is much speculation as to what bills will be passed to remedy business conditions. It was expected that more would be accomplished in the early days of the present session, but a great deal of time was taken up over the Pike County division, prohibition and woman suffrage, neither of which have made any headway towards being enacted.

It appears that State-wide prohibition has been put to sleep for all this session, being defeated in both the House and the Senate.

The bill for the proposed Stanley county laid on the table in the Senate, is not expected to be brought up again.

Woman suffrage unfavorably reported in both the House and the Senate, but brought out in the lower body over the committee by a majority vote and placed on the calendar, up appears to be certain of defeat.

The usual scramble at the eleventh hour is expected by those who have carefully watched the proceedings of this and many previous sessions of the Kentucky lawmakers.

Out of respect to the memory of Abraham Lincoln, both branches adjourned over Saturday, February 12th, his birthday.

The first thing Governor Stanley did after the State-wide prohibition amendment was defeated, was to call Attorney-General M. M. Logan, Auditor Robert L. Greene and Treasurer Sherman Goodpastor into conference, with a view to legislation which it is intended to liquidate the State debt of three million dollars.

The first thing to be done is to secure the passage of a bill under which provision may be made for decreasing the amount of interest now being paid by the State on its outstanding war loan.

A committee of the Kentucky Bankers' Association will assist in the preparation of this bill. Several of the leading bankers of the State have already consulted with Governor Stanley regarding the matter, and administration officials are optimistic concerning the likelihood of eliminating the debt. Leaders declare that the future of the Democratic party in Kentucky depends in a great measure upon it.

The Duncan administration bill to amend the text book adoption law to provide that not more than three subjects of study shall be changed at any one year was recommitted with leave to bring it forth at any time. This bill has passed the Senate and will be substituted for the House Bill.

The solons are beginning to take stock now that the session of the General Assembly is more than half over. Every man who has a bill that he relies on to pass in order to square himself with his constituents is beginning to figure on how he can get it through the legislative maze that now confronts him.

There will likely be some fancy "jockeying" from now on, and all sorts of arguments will be brought to bear by the anxious solons to get their measures advanced before the time when they must trust to the tender mercies of the Rules Committee.

State-wide prohibition was defeated in the House of Representatives failing to receive the necessary three-fifths by six votes.

The vote stood 54 for submission and 40 against.

During the debate on this measure in the House trouble arose between Representative W. H. Harvey, of Dixon, Webster county, and Representative J. D. Pumphrey, of Flemingsburg.

Speaking in support of the measure, Representative Harvey resented a statement that a Democratic member who voted for the bill was a holter. He referred to the Democratic convention at Louisville last year as not representing the real sentiment of the party. He criticized Governor Stanley harshly and accused him of deceiving the dregs in certain localities as to his attitude on the state-wide question.

When Representative Pumphrey gained the floor his speech precipitated trouble. He declared that he intended to vote for state-wide even though he knew it to be contrary to the platform, because he had promised his constituents to support it, but he declared he could not remain silent when the Governor was being attacked.

He made charges that a chambermaid at a hotel in Frankfort had accused Representative Harvey of approaching her in his room with outstretched hands several weeks ago.

The accusation was investigated thoroughly by Police Judge W. C. Hendon and Policeman H. L. Quire at the time said that the statements made by the woman were not sufficient to issue a warrant.

Harvey branded the statements of Pumphrey as a black falsehood deliberately and maliciously planned by a man against his enemy. He told that it was a frameup by these opposed to state-wide prohibition.

The state-wide prohibition amendment is dead for the present session of the legislature, having been defeated by the Senate.

The Woman Suffrage constitutional amendment providing for the people to vote of the question of whether women shall vote or not was brought out of the hands of the Committee in the House of Representatives despite their unfavorable report, by a vote of 51 to 40.

The vote of the Committee stood 5 to 4 in favor of killing the bill, but Representative Hobbs, of Lexington, author of the bill, moved that notwithstanding the unfavorable report, the bill be given its first reading and placed in the calendar. He made a brief speech in favor of the bill and Representative Odie Duncan, of Henderson, spoke against it.

The galleries of the House were filled with women long before the time to vote on the motion and were jubilant at their success in having it placed in the calendar.

Without debate or roll call, the Prohibition program by President Wilson was endorsed by the Senate. The joint resolution was introduced by Senator Bailes, of Spencer County.

The impeachment committee decided to make two reports to the House on the petition for the impeachment of J. E. Williams, Judge of McCrory County. The majority report, signed by the Democratic members will recommend the impeachment. The minority report, submitted by Representative White, of Marion County, the sole Republican member on the committee, will recommend the petition be dismissed.

The Strickland-Holbert anti-pass bill passed by both branches of the General Assembly, was the first signed by Governor Stanley and will become a law, January 1, 1917. It is the last of the Democratic platform measures to become a law.

The State Board of Equalization has been organized with W. M. Duncan, of Lawrenceburg, as chairman, and W. D. Mason, of Lancaster, Chief Clerk. The Assistant Clerks are E. P. Peterson, of Campbellsville and P. E. Mattingly, of Brandenburg.

Secretary of State Lewis has reappointed Charles J. Howes, who has been acting as Assistant Secretary of State, to hold until March 15th, or until his successor is appointed and approved by the Governor.

The Court of Appeals, in an opinion by Judge Turner, upheld the position of State Auditor Theene and Attorney General Logan, refusing to allow the salaries of the porter and seven stenographers for the month of January in the office of V. D. Gilbert, State Superintendent of Public Schools.

The Court suggested that the General Assembly alone has power to appropriate public money to that purpose.

Gilbert says that he will appeal to the legislature for help and a bill to that effect will be thrashed out.

Two bills designed to enforce the Sunday closing law in Kenton and Campbell Counties passed the House without serious opposition after much trouble was experienced in getting them placed on the calendar and through the necessary readings before a vote was taken.

The bills were introduced by Representative Greene, of Carrollton. The representatives from Kenton and Campbell Counties fought valiantly to defeat the measures.

The first measure is known as the "common nuisance injunction act." It provides any place where liquor is sold in violation of law shall be considered a common nuisance and provides for the abatement of such nuisances by injunction.

Upon the affidavits of three credible citizens of any community that such a nuisance exists, the Attorney General of Kentucky is required to institute an action to enjoin the nuisance perpetually.

The second bill passed is a "forfeiture act." This measure provides any saloon keeper who violates the law shall forfeit his license, and that no such saloon keeper shall ever be granted another license.

The most drastic feature of the bill is the action which gives jurisdiction in all cases under the act to the Franklin Circuit Court upon the affidavit of two credible witnesses that there has been a violation of the law. Either side may appeal to the Appellate Court.

The State Excise Commission bill, which has been proposed by the Governor as a substitute for the measures was not introduced.

The "forfeiture act" has been reported unfavorable in the Senate.

Men may differ about preparedness for war, but all of us believe in preparedness for most things.

It is preparedness that sends the runner over the tape ahead of his rivals. It is preparedness that enables the advocate to sway judge and jury with his logic. It is preparedness that enables the manufacturer to out-distance his competitors. It is preparedness that has made the General Roofing Manufacturing Company

The Big Gun of the Roofing Business

The General's preparedness consists of the three largest and best equipped rolling and building paper mills in the world. Each is a complete producing unit, manufacturing the full line of the General's products. Each is advantageously located in the territory it serves, has cheap fuel and favorable transportation facilities. The General buys raw materials in enormous quantities and far ahead. This means favorable buying and the pick of the market. With manufacturing so perfected and cheapened, the highest quality is produced at the lowest cost. This preparedness enables the General to make one-third of all the rolls of roofing used. All over the civilized world you will find

Certain-teed Roofing

The quality of a roof cannot be determined by looking at it, nor by twisting or tearing. Its durability must be tested except in actual use over a period of years. Contrary to popular belief, roofing does not wear out—it dries out. CERTAIN-TEED Roofing is especially made to defeat this process of drying out; as it is thoroughly saturated with our properly blended soft asphalt and coated with a blend of hardeners, which keeps the soft saturation—the life of the roofing—from drying out. This gives a roofing flexible, yet durable, and impervious to the elements. CERTAIN-TEED products are made under the supervision of our board of graduate chemists, and are the result of long experience in mixing, refining, and blending. CERTAIN-TEED Roofing is guaranteed to hold "its place in the sun" for 5, 10, or 15 years according to whether it is 1, 2, or 3 ply, respectively. Behind this guarantee stands the reputation of the world's largest Roofing and Building Paper Mills. That experience has proved that CERTAIN-TEED is conservative, and that its roofing will stand the test of time. There is no other CERTAIN-TEED, and its proper method of application, for every kind of building with that of pitched roofs, from the largest skyscraper to the smallest structure. CERTAIN-TEED Roofing is sold by responsible dealers all over the world at reasonable prices.

Six inch longer wheelbase. Larger body. Larger, quieter motor. Every detail refined and improved.

The new Grant Six is the epitome of six luxury, six comfort and six economy—true economy.

It is richer and handsomer in appearance, and wonderfully complete in its appointments. It not only looks like a big six—it is a big six—though it is a light six.

Grant Six has the largest body of any car below \$1000. Wheelbase is now 112 inches—six inches longer than last season's model. Rear seat now extends over the wheel house. Three large people can enjoy rear seat comfort.

A six-foot man can stretch his legs in front or rear seat and have room to spare. Cushions are deeper and softer—upholstery more luxurious.

We suggest that you get a road demonstration—let the Grant Six talk for itself.
